8116 Arlington Blvd Ste 225, Falls Church, VA 22042

## OUR SERVICES

### BIG DATA & ETL ENTERPRISE

Specializing in extracting insight from vast, complex data—structured or unstructured, user- or machine-generated.

### INSIDER THREAT

Delivering rapid intelligence and monitoring solutions to detect high-risk users and prevent insider threats.

### APPLICATION & MOBILE DEVELOPMENT

Building enterprise web and mobile apps, specializing in rapid prototyping, big data indexing, and federated search.

### DATA ANALYSIS

Harnessing large data sets to help leaders make data-driven and analytical decisions. This includes utilization of big data tools, data science processes, and AI to improve mission critical decision making.

## PAST PERFORMANCE

### IDIQ IT SUPPORT PROGRAM

All encompassing IT consolidation contract for a highly cleared intelligence community customer. Work was initially awarded a 10 year IDIQ and re-awarded in individual Task Orders following the 10 years. The scope of work includes technical skillsets from IT support to networking, cyber, systems engineer, software development, data science, AI/ML, Cloud Engineering, Agile product delivery, and more.

### INSIDER THREAT PROGRAM

Mission-critical work protecting agency integrity. Scope included software development, DevOps, data science, cyber, and network analysis—recognized for driving actionable insights. Enlisted precise and vigorous intrusion systems that optimize your organizational efforts. Deployed real-time system alerts, triggers and warnings.

### ENTERPRISE SEARCH & RETRIEVAL

Provides Enterprise Search & Retrieval Services, consistent with Product Vision above and specific Product Owner MVIs, which includes the following:

- **Document Repository Services:** Design, develop and maintain document and metadata management services.
- **Search and Discovery Services:** Design, develop, and maintain enterprise search services based on open search standards.
- **Messaging and Standards Services:** Design, develop, and maintain messaging and standards services that facilitates cross-service communication via defined service interactions.
- **Knowledge Management Services:** Design, develop, and maintain knowledge management services to include highlighting and/or document comments.
